## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

***Claim 1 rejected under 35 U.S.C. 103(a) as being unpatentable over Shirai (5,572,571).***

**Regarding claim 1**, Shirai discloses permitting access to services provided on subscription by a first provider (see col 7 lines 54 – 65). Shirai fails to disclose the claimed preventing access to services provided on subscription by a second provider until after the subscription from the first provider is put into use for the first time and after the subscription has continued to be used until a later different second time.

Official Notice is take it would have been well known to prevent access to services provided by a second cellular provider by implementing a cancellation penalty fee to ensure the user has subscribed to the first subscriber from a first time to a second time as per contract. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Shirai to include the claimed limitation to ensure the subscriber maintains and upholds the contract requirements.
